

WANTED: (JUNIOR/SENIOR) SOFTWARE DEVELOPER FRONTEND

```
// Hello
if (unhappyWithYourJobSituation() === true) {
    unhappyWithYourJobSituation().stop();
    readThisJoinUs();
}
```

What? Complevo?

If you are searching for a company that offers start-up-advantages like agile and lean management, short decision paths, Club Mate, table tennis and a great team atmosphere with benefits of established companies (such vintage fashions as safe workplace, successful positioning, steadily growing success) - then you are at Complevo.

We offer...

... embedded in "sexy" frontends.

What else? Esteem, flexible working time, fair payment, good working conditions, team events, a great international team & much more. Find out.

You offer ...

We are searching for a professional who feels at home particularly in the last of three areas:

CUSTOMER // CONCEPT // **DEVELOPMENT & TEST**

You are responsible for the mapping of user stories into intuitive UI workflows. You are accountable for your work from analyzing and implementing to testing and deploying. Further, you communicate effectively with customers and team members.

... embedded with (let's say some) social skills – you are our (wo)man!

Let's come to the small print.

For this job, we work with the following:

▪ CONCEPTS & ARCHITECTURES: ▪ FRAMEWORKS & LIBRARIES:

// Single Paged Apps // React, Angular2
// Modular web applications // Redux, MobX
// Asynchronous requests // Material UI, Bootstrap
// Connection with JSON-REST-APIs // Node.JS
// Serialization (e.g. JSON)

▪ LANGUAGES:

// Javascript, Typescript
// CSS

▪ DEVELOPMENT ENVIRONMENTS:

// Visual Studio Code
// NPM
// SVN / Git
// Visual Studio

At Complevo we are always open for new technologies and thankful for your personal input and experiences. So, if you don't have experiences with all the above-mentioned, no worries. Go on, trust your and our instinct.

Still interested? - Yay!

Then contact us at jobs@complevo.de

See you soon.
